The New Markets Tax Credit (NMTC) Program was created in 2000 by Congress to encourage the flow of private investments into very low-income communities. Between 2003 and 2015, investment in NMTC financed businesses totaled over \$80 billion, and those businesses directly generated over 750,000 jobs nationwide.

FCLF continues to be the only Florida-based NMTC recipient with a significant track record in sourcing and closing NMTC transactions. FCLF's NMTC Program is dedicated to improving low-income communities through projects with broad social impact.

FCLF NMTC SUCCESS STORY:

CENTRAL FLORIDA HEALTH CARE

Central Florida Health Care is a FQHC, or Federally Qualified Health Center, providing services to 30,000+ annually, primarily to low-income individuals in rural Florida, with special outreach to agricultural workers. CFHC provides a wide range of services, including pediatric, OB/GYN, dental, and more, regardless of the patient's ability to pay.

Financing through the NMTC Program allowed Central Florida Health Care to renovate and expand 2 existing sites and expand into 2 new locations, spanning 2 counties and 3 cities and reaching 5,000 additional patients annually.

Without NMTC it would have been years before CFHC could undertake an expansion of this magnitude.

FCLF provided \$8.5 million in Federal NMTC and \$6.4 million in Florida NMTC for the transaction. The investor is U.S. Bancorp Community Development Corporation. Whitney/Hancock Bank is a lender on the project.

Florida Community Loan Fund NMTC PROJECTS

COMMUNITY FACILITIES

- HOMELESS FACILITIES
- COMMUNITY HEALTHCARE
- DOMESTIC VIOLENCE SHELTERS

From urban core facilities that provide help for homeless and domestic violence victims to non-metro areas where healthcare for low-income residents is a real concern, community facilities that place a priority on serving low-income clients or provide dedicated services to low-income or at-risk clients are a priority for FCLF's NMTC Program.

NMTC PROGRAM GUIDELINES

LOAN SIZE

- \$6 million minimum loan size

LOAN TYPES

- New or substantial rehabilitation of commercial projects

PROJECT METRICS

- NMTC qualified distressed census tract
- High impact and clear benefits to low-income populations and neighborhoods
- Construction jobs generated
- New permanent jobs generated
- Some financing commitments already in place

NMTC ADVANTAGES

- Monthly payments are lower than for similar size conventional loans, as a result of interest-only payments.
- Effective rates are often below market for commercial loans of this type.
- The "B" loan is often treated as up-front substitute for a portion of equity required by lenders, resulting in higher LTVs.
- The equity conversion of the "B" loan means that most up-front equity becomes true equity at end of 7-year term.

NMTC CHALLENGES

- There is a balloon payment requirement at the end of 7 years; underwriting is for ability to refinance at that time.
- Some inflexibility (e.g., project location restrictions, no prepayments, term is always 7 years, certain purposes not allowed, etc.).
- Program is very complicated and closings are time consuming; there is a notable learning curve for first-time capital providers and borrowers.
- High legal and accounting fees.
- Project must be ready to go.
- Generally, a new single purpose borrowing entity is required in order to reduce the significant reporting requirements during loan term.
- In addition to loan guaranty, a borrower or guarantor also provides indemnification for tax credit recapture events.
