

RESILIENCY ■ STRENGTH ■ COMMITMENT

ANNUAL REPORT 2025

A MESSAGE FROM THE CEO AND BOARD OF DIRECTORS

Florida Community Loan Fund was founded in 1994 by a dedicated group of volunteers determined to meet the financing needs of Florida's low-income communities. That founding principle shaped our core purpose – to maximize opportunities for people and places outside of the economic mainstream – which has guided not only how we lend, but how we respond to economic change, manage risk, and support our borrowers through both opportunity and uncertainty.

While 2025 marked 30 years of FCLF impact, it was also a year characterized by forward momentum, strong performance, and a renewed sense of responsibilities to the partners and communities we serve. As we reflect, three defining qualities stand out: **resilience, strength, and commitment** – attributes that have shaped our history and continue to direct our work today.

FCLF is resilient. We have navigated economic challenges, policy shifts, and moments of disruption throughout our history while remaining focused on our mission. During the Great Recession of 2007-2009, we carefully monitored our loan portfolio, adjusted lending policies, and worked constructively with borrowers to weather the downturn. And while we did experience a few minor loan charge-offs, no investor was adversely affected. Since our inception, we have maintained a 100% repayment record with investors – an outcome that exhibits disciplined stewardship and long-term partnership.

The same approach guided our response during the COVID-19 pandemic. As income declined for many nonprofits and businesses in Florida, we helped FCLF borrowers as well as organizations not yet within our network access capital and critical resources when they were needed most.

Most recently, we've weathered rising construction costs, tighter capital markets, and shifting policies. Through it all, we've continued to be a strong and resilient Community Development Financial Institution that is motivated by lives positively impacted and communities strengthened with each transaction we complete.

FCLF is strong. Our resilience reflects our continued growth and the strength of our performance. In 2025, FCLF achieved new milestones:

- We closed \$103.7 million in loans to support community development projects across the state, marking a third consecutive year of new highs in loan production: \$39.7 million through our core lending, plus \$64 million through New Markets Tax Credit transactions.
- Total Assets increased 16.5% to \$209.7 million.
- Total Net Assets increased 21.8% to \$73.3 million.
- Loans Receivable grew 16.9% to \$168.2 million.

- FCLF financing created nearly 2,000 jobs contributing to a total of over 28,000 jobs created since our inception.
- The projects we helped finance reach 2.65 million low-income Floridians annually with housing or services.

Perhaps even more important than our financial strength is the strength of our people. FCLF has attracted and retained a highly qualified, experienced, and dedicated team of professionals who demonstrate their commitment to our core principles every day. Additionally, FCLF is guided by an engaged and committed Board of Directors who share our passion for improving communities and contribute deep, diverse expertise in service to advancing our mission.

FCLF is committed. Our commitment to our borrowers extends long after a loan closes and a ribbon is cut because we believe the true measure of our success is the effectiveness and endurance of the organizations we finance. The longevity of our borrowers speaks to the importance of sustained access to capital, and we are privileged to partner with some of the most experienced and resilient nonprofits and mission-focused for-profit organizations in the state. In this report, we highlight such partners, including:

- Neighborhood Renaissance, now expanding into Florida’s Panhandle with Cross Creek Gardens after 33 years of providing affordable housing.
- Community of Hope, the largest provider of homeless housing in Brevard County, with 20 years of experience serving vulnerable populations.
- Childcare Resources of Indian River, supporting families with affordable childcare and other essential services for more than 30 years.
- Harry Chapin Food Bank of Southwest Florida, addressing food insecurity needs in five counties for 42 years.

As we share this annual report, we thank our investors and supporters who have walked alongside Florida Community Loan Fund for 30 years. During 2025 – and over the past three decades – we have seen several economic shifts and challenges. What remains constant is FCLF’s focus on the people behind the numbers: the low-income communities of Florida and the mission-driven organizations working every day to serve them.

With your continued support, we are confident in our talent and determination to continue this work while staying grounded in experience, disciplined in approach, and committed for the long term. We look forward to our next 30 years of impact.

Ignacio Esteban

COMMITMENT TO AFFORDABLE HOUSING

CROSS CREEK GARDENS

Neighborhood Renaissance, a nonprofit Community Development Corporation (CDC) founded in 1992, creates and preserves strong neighborhoods within the financial reach of low- and moderate-income working families. With financing from Florida Community Loan Fund and other partners, Neighborhood Renaissance is developing Cross Creek Gardens at Quincy in Florida’s panhandle, through a collaboration with Acruva Community Developers. The apartments will be available to households with incomes at 50% to 80% of area median income (AMI) – as low as \$748 per month – helping these families make ends meet. This project brings vital affordable housing to a county that has fewer than 300 rental units, most of which are routinely occupied. FCLF has provided financing for many Neighborhood Renaissance projects over the past 23 years. As a member of the Federal Home Loan Bank of Atlanta, FCLF assisted in securing an Affordable Housing Program (AHP) grant of \$700,000.

FCLF has an incredible track record of facilitating capital flow to address the shortage of affordable housing throughout the state. With a shared vision and mission to grow communities and propel strong economies, FCLF is an instrumental resource for both Neighborhood Renaissance and the City of Quincy in this endeavor.

— Terri Murray, Executive Director

FCLF IMPACT Northwest Florida

- \$1.8 million FCLF financing
- \$16.4 million total project budget
- Loan for construction and permanent financing
- 36 units of affordable rental housing

THE HUTCHINSON FOUNDATION

Founded by Florida native Kindrell Hutchinson, The Hutchinson Foundation was established in 2022 in response to gentrification in East Gainesville, where investors and developers were purchasing homes and land for profit at the expense of long-time residents. The HF works to preserve neighborhoods and ensure long-time residents can remain in their community. It does this by developing new affordable housing – from acquiring land to overseeing construction to managing the properties. Florida Community Loan Fund provided financing for Jessie’s Village, which includes 22 affordable rental homes across five buildings. These homes will be available to low- and moderate-income households, creating a stable and supportive environment where families can grow and thrive. The project aligns with the City of Gainesville land use plans, which include creation of affordable homes. FCLF financing for this project included more favorable loan terms, made possible by an ERP Award from the CDFI Fund, helping to ensure the project’s success.

Working with Florida Community Loan Fund has been a true partnership. They understand not just the numbers behind Jessie’s Village, but the deeper purpose – what it means for this East Gainesville community to have affordable housing built by people who live here and care about what happens long after the ribbon is cut. FCLF’s commitment allowed us to move forward with confidence, knowing we have a financial partner who shares our mission to create lasting, community-driven impact.

— Kindrell Hutchinson, CEO

FCLF IMPACT Northeast Florida

- \$2.46 million FCLF financing, featuring a low interest rate made possible through the ERP program
- \$3.5 million total project budget
- Loan for construction and permanent financing
- 22 units of affordable rental housing

COMMUNITY OF HOPE

Community of Hope was formed in 2005 through a collaboration of churches dedicated to ending the cycle of poverty by providing affordable housing and services to families with children. The organization has grown to become Brevard County's largest provider of affordable housing for homeless families. Residents have access to a variety of services, including financial planning, parenting classes, and life skills training. Florida Community Loan Fund has provided financing to CoH since 2018 through 4 loans supporting affordable rental housing for families at risk of homelessness and youth aging out of foster care in Brevard County. Most recently, FCLF financed the purchase of over 21,000 square feet of commercial real estate. This new space will serve as Community of Hope's headquarters and include a thrift store and room for the future expansion of services. This investment helps strengthen the organization's mission and provides a stable foundation for continued growth.

As a nonprofit affordable housing provider, Community of Hope struggles with attaining traditional bank financing; Florida Community Loan Fund made funding more affordable housing simple. The families we serve are more in their debt than we are!

— Drew Warren, Executive Director

FCLF IMPACT Central Florida

- \$1.785 million FCLF financing
- \$2.2 million project
- Loan for acquisition and renovation of 2-building plaza for organization headquarters and future expansion
- 21,270 square feet for nonprofit administrative offices and services for low-income families

SUNSHINE STATE DEVELOPMENT OF SOUTH FLORIDA, INC.

Sunshine State Development of South Florida, Inc. was founded in 2013 with a mission to provide affordable housing in the region. When an affordable housing project in North Miami stalled due to the COVID-19 pandemic, Sunshine State stepped in to partner with the City of North Miami and the Community Redevelopment Agency (CRA) and finish the project. Florida Community Loan Fund provided financing to complete the construction of NOMI Lofts, a two-story building featuring five apartments available to area low-income senior citizens. This project is a critical addition to a low-income, high-poverty neighborhood that is currently experiencing a surge in high-end development, which could lead to rising rents. FCLF financing for this project included more favorable loan terms, made possible by an ERP Award from the CDFI Fund, helping to ensure the project's success.

When you think of community projects, you need a community partner. Florida Community Loan Fund is the best partner to have!

— Lynda V. Harris, President/CEO

FCLF IMPACT South Florida

- \$1.1 million FCLF financing, featuring a low interest rate made possible through the ERP program
- \$2.2 million total project budget
- Construction loan
- 5 affordable rental homes for seniors

COMMITMENT TO COMMUNITY FACILITIES

CHILDCARE RESOURCES OF INDIAN RIVER

Childcare Resources provides research-based learning experiences for working, economically challenged families and their young children in Florida's Indian River County. Over its 30-year history, CCR has become recognized as a center of excellence in the community. With financing from Florida Community Loan Fund, CCR purchased an existing building in Vero Beach to serve as its new home. This relocation and expansion will provide not only childcare and education for infants through Kindergarten, but it will also offer additional wellness and early intervention services, ongoing formal professional development for educators, and collaborative and community space; all strengthening CCR's impact as a model of high-quality educational practice. This new facility will help Childcare Resources reach its vision for all children and families to benefit from a high-quality learning experience.

Childcare Resources envisions a community where all children and families benefit from a high-quality learning experience. With the backing and help of Florida Community Loan Fund, we will now be able to accelerate progress toward this aspirational vision and establish an Early Childhood Center of Excellence focused on deepening and strengthening our work here in Indian River County and beyond.

— Shannon McGuire Bowman, Executive Director

FCLF IMPACT Southeast Florida

- \$8.34 million FCLF financing
- \$14.5 million total project budget
- Loan for acquisition of community facility providing children's education and other services
- 30,000 square-foot facility to be renovated into organization's primary location and headquarters
- 500+ students estimated enrollment after renovation

HARRY CHAPIN FOOD BANK OF SW FLORIDA

Harry Chapin Food Bank of Southwest Florida is the region’s largest hunger-relief organization, serving 300,000 neighbors monthly across a 5-county area since 1983. With one in eight people – and one in six children – facing food insecurity, the need for assistance has grown by 10% in the last year. This increased demand is from children, families, and seniors, as well as those whose salaries cannot keep up with rising costs, such as public service workers and educators. To meet this growing need, HC Food Bank is building a new 97,000 square foot warehouse and distribution center with financing through the New Markets Tax Credit program. This expansion will allow the organization to serve more neighbors and offer increased access to healthy foods, nutrition education, and critical wraparound services. The Harry Chapin Food Bank’s vision is to ensure no one goes hungry in Southwest Florida, striving to build a stronger, hunger-free future for generations to come.

While prosperity defines much of our region, countless children, families, and seniors still face food insecurity. At Harry Chapin Food Bank, we are building boldly to expand our capacity and strengthen partnerships so we can fulfill our mission to lead the community in the fight to end hunger.

– Richard LeBer, President & CEO

FCLF IMPACT Southwest Florida

- \$47.5 million total project budget
- \$16 million FCLF Federal NMTC allocation
- 97,000 sq ft of new construction
- Facility for services and food distribution, addressing food insecurity
- 162 Temporary and 118 Permanent Jobs estimated

Additional NMTC allocation provided by Truist Community Capital, LLC, CAHEC New Markets, LLC, MBS Urban Initiatives, and National Impact Fund, LLC. The investor is Truist Community Capital, LLC.

HANDY

Handy, or Helping Advance and Nurture the Development of Youth, has been transforming the lives of young people and their families in high-risk communities in Broward County since 1985. The organization provides essential support for youth in foster care or living with relatives, as well as for families with incomes below the Federal Poverty Line. Handy's programs offer life skills training, education support, employment skills, internships, mentoring, and counseling. With Florida Community Loan Fund financing, Handy purchased a 43,000 square foot building for its headquarters. This new, permanent location ensures Handy can remain in the community it has served for decades while expanding its programs and reaching even more youth. Owning the building also allows Handy to rent additional space to other local nonprofits and service providers, creating a community hub and a source of revenue to support its mission and long-term sustainability.

Our new 40,000-square-foot facility represents more than upgraded amenities, it is a safe and nurturing space where youth can grow, thrive, and realize their full potential. This transformative investment allows us to expand services, provide greater resources, and create opportunities that break the cycle of poverty while building a legacy of brighter tomorrows. We are honored to partner with FCLF in advancing Handy's mission and deepening our shared commitment to transforming the lives of the youth who need us most.

— Kirk Brown, CEO

FCLF IMPACT South Florida

- \$6 million FCLF financing
- \$6 million total project budget
- Acquisition financing for social services organization
- 43,000 square feet of space for nonprofit services to youth and administrative offices
- 1,100 low-income youth served annually
